

**VIEWPOINT GOLF & RV RESORT RESIDENTS
HAVE AN EXCELLENT CHOICE
FOR HIGH SPEED INTERNET SERVICE**

WYDEBEAM BROADBAND offers a short term and long term high-speed internet service for Viewpoint Residents.

CONTACT them at the new Viewpoint only phone number: 480 302-2200, or drop an email to sales@wydebeam.com.

WI-FI

The Wi-fi service is for people staying less than 30 days, in spaces or pads. People in homes do not get wi-fi, that's not how the wi-fi coverage was designed for the park.

Wi-fi has no start up cost. Wi-fi rates are the same as last year:

1 week \$10: 2 weeks \$20: 3 weeks \$30: 4 weeks \$40

DSL

DSL is sold in 30 day increments for a \$39.99 monthly service, no other charges such as taxes or usage are added, \$39.99 is the total charge.

Our DSL style system promotes a winning combination for Viewpoint's seasonal residents, as there are **no contracts, no installation fees** and no summer time rates. The service will be delivered over the phone line that already runs to the home. Both voice and data traffic can operate at the same time, with the use of a line filter(s), which are supplied. A **modem** is required to transfer the phone line copper pair into a data cable. We charge \$ 65.00 for the modem, plus \$ 5.88 of Mesa City sales tax or \$ 70.88 total. Once a modem is purchased, it can be used year after year, with no additional yearly hookup fees.

SPEED

Both systems provide the same speed, 1 meg download, 512 kbps upload.

INSTALLATION/TERMS & CONDITIONS

Installation does **NOT** include fixing virus laden computers, installing software, or spending time teaching customers how applications work. However, IT Services are available for a fee. **Terms & Conditions** - **No** customer should broadcast internet to neighbors, it is illegal, and no one should want their computers available to hackers, violators will be kicked off the service.

ROUTER

A router is required in order to have more than one computer on the Internet at the same time. The cable from the modem just plugs into the router instead of the single computer. A router can be wireless, but we would like all of the routers using our service to be secured and we will help those customers who need help with that for free.

BILLING

The ongoing billing will be done via credit or debit card, in 30 day increments from the day that you start services. Please think ahead, we will not be issuing refunds when it's time to go home and you were not there for the whole month.
